

## **NO MOW / LOW GROW**

*45% Spartan Hard Fescue*

*40% Azay Sheep Fescue*

*15% Transit Annual Ryegrass*

This blend was developed for hard to mow areas where minimal up keep is desired. Once established, it requires no fertilizer or irrigation. If not mowed, the grass will grow to about a foot and bend over. If unmowed, Wild flowers can be seeded in at a rate of (4 to 6 lbs per acre). If mowed, it should be cut at four inches. Spartan hard fescue is a tough and vigorous variety with good drought, shade, and cold tolerance. It is dark colored and fine textured. Azay Sheep Fescue has a very fine leaf texture and moderately dark blue green color with low maintenance needs and slow growth rate. Transit annual ryegrass is included for quick establishment.

*Seeding rate 4 to 6 lbs per 1000 sq. ft. (175 to 250 lbs. per acre) (#29-1400)*
