

# PREMIUM RYEGRASS BLEND

## SEED TECHNOLOGY SHEET

### Description

Reinders Premium Ryegrass Blend is a unique blend of Sunshine II, Fiesta III and Blazer 4 perennial ryegrass. With this leading edge of top varieties Premium Ryegrass Blend is a ryegrass blend that will see turf professionals into the future.

Each of Premium Ryegrass blend's components was screened and selected for the strength it adds to the blend. While all varieties are superb on their own, combined they are unbeatable. Cutter provides outstanding deep green color, density, drought and heat tolerance, and resistance to brown patch. Fiesta III lends persistence, dark green color and lower growing. Blazer 4 leads to improved insect resistance, a dark green color, and density.

### Formula

33% Sunshine II Perennial Ryegrass  
33% Fiesta III Perennial Ryegrass  
34% Blazer 4 Perennial Ryegrass

### Recommended Seeding Rate

New Seeding: Rotary or Drop Spreader  
200-300lbs/acre  
Overseeding: Slicer/Seeder  
20%-50% existing cover 200-250 lbs/acre  
50%-75% existing cover 150-200 lbs/acre

### Recommended Use

Premium Ryegrass Blend is designed as a solution to turf problems in heavy traffic areas. It is intended as an overseeding formula for athletic fields, golf course tees and fairways, playgrounds, foot paths and other areas of wear. It establishes a durable turf on heavily compacted soils. Premium Ryegrass Blend is fast with seedlings in 5- 7 days on warm soils. These rapid establishing, aggressive seedings are highly competitive against annual weedy grasses and provide stability for soils prone to erosion.

### Recommended Maintenance

This blend should be considered a high maintenance formula where traffic tolerance is primary concern. Maximum stands on compacted soils will be achieved through the use of a slicer/seeders or seeding after core cultivation and drag matting to provide sufficient seed-to-soil contact. The turf may be maintained down to 1/2-inch mowing height with excellent retention of density and aggressiveness. Generally, Reinders Premium Ryegrass Blend should be fertilized 2 to 4 times per season depending upon traffic intensity and soil type.
