

**Quick-Check Basket Filter**

The only commercial-grade filter with a clean/dirty indicator for low-volume irrigation zones.

- Reduces maintenance and labor costs — the indicator tells you when to clean the filter, taking the guesswork out of cleaning the filter.
- Provides increased reliability – “No-spill” feature ensures dirt does not fall back into the filter during cleanup operation.
- Simplifies installation and maintenance – threaded top with O-ring makes it easy to remove and clean the screen.

Pressure Loss Characteristics - QKCHK-100
