

QUICK MELT

Calcium Chloride

General Description

QUICK MELT is a pelleted calcium chloride product. Premium calcium chloride ingredient creates heat promoting faster melting and higher penetration rate as an ice melter.

MELTS TO -25°F.

Applications

Melts ice and snow on concrete and asphalt. Retail packaging is convenient for customers and easy to stock.

Availability

Item #	Weight	Description	Qty/Pkt	UPC
171-0624	9#	Plastic Jug	160	0 83702 17109 4

Physical Properties

Appearance	White Pellets
Odor	None

Safety and Handling

For brief contact, no precautions other than clean body-covering clothing should be needed. Selection of specific items such as goggles, gloves, and apron will depend on the operation. Eye/face protection is recommended for dusty operations or when handling solutions.

Appropriate ventilation should be in place to keep atmospheric levels below industrial hygiene guidelines.

Rubber boots and gloves are recommended, due to the adverse effect of calcium chloride on leather.

Calcium chloride generates a great deal of heat when it is dissolved. Use cool (less than 80°F/26°C) water when making solutions.

Consult local authorities for proper disposal information.
