

SELECT[®]

General Description

SELECT[®] is a non-chloride, biodegradable product for use in environmentally sensitive areas.

Applications

Apply SELECT[®] liquid to sidewalks and traffic areas prior to a Winter storm to prevent the bonding of snow and ice. Light snows will melt on contact and heavy snows will be much easier to remove.

SELECT[®] is ideal for use around plantings or aquatic life that would be damaged with ordinary ice melters.

Municipalities have reported that every pound of a liquid deicer prior to a storm can save four pounds of product after the storm.

Physical Properties

Potassium Acetate

Availability

5 Gallon Dense Pak
250 Gallon Tote

Safety and Handling

This substance can cause skin irritation following prolonged exposure. It can be slightly irritating to the eyes. Avoid eye contact by using chemical goggles.

Consult local authorities for proper disposal information.
