

# SNOWSLICER™ BULK ICE CONTROL

## A Prewet Ice-Melting Product

### General Description

SNOWSLICER contains a blend of naturally occurring crystal and liquid ice-melt products. SnowSlicer is created through the application of a high-performance, liquid de-icer added to a blend of fine and coarse crystal ice melt by using “prewetting” technology. Through the prewetting process, this high-performance, granular ice melt can be made to melt faster, last longer and perform better.

MELTS TO -0°F.

### Availability

| Item #    | Weight | Description | Qty/Plt | UPC |
|-----------|--------|-------------|---------|-----|
| 0-0612CSS | TON    | BULK        | N/A     | N/A |

### Applications

Through the use of prewetting technology each crystal is encapsulated in a high-performance liquid de-icer. This feature gives superior performance, reduced bounce and scatter, corrosion protection to spreading equipment and minimizes environmental impact.

When used properly, it should not be harmful to vegetation. It is safe to handle and is not known to stain shoes, carpet, cement, or asphalt.

### Safety and Handling

For brief contact, no precautions other than clean body-covering clothing should be needed. Prolonged or excessive exposure can cause excessive drying with symptoms including redness, drying and cracking of skin. Wash hands following exposure.

Consult local authorities for proper disposal information.

**For full safety and handling information contact Reinders, Inc. for a copy of the Material Safety Data Sheet for this product.**

### Physical Properties

|            |                       |
|------------|-----------------------|
| Appearance | Light Purple Crystals |
| Odor       | Slight halogen odor   |
