

Liquid Fertilizers

NPK Nutrient Blends

Highest Quality Ingredients

All nutrients are supplied from the highest quality liquid sources. These products are particularly well suited for green and tees or other areas of high quality turf.

Low Burn Potential

All ingredients have low osmotic potentials minimizing any risk of foliage burn.

Controlled Release N

The blend of polymethylene ureas provide an immediate N response followed by a uniform and sustained release. Growth surges and declines are minimized creating a consistently playable surface.

More Available P & K

Phosphorus is complexed organically, protecting it from imobilization in the soil and increasing its availability for plant uptake. Potassium is provided in a chlorine free form that is available to plants longer.

Organic Advantage

A complex mix of organic acids from a patented extraction process enhances the performance of the nutrient blends and improves soil quality.

Micronutrients

Enhanced Nutrient Availability

Organic acids chelate nutrients increasing their availability and uptake by the turf plant.

Flexibility

Individual nutrient solutions allow specific deficiencies to be remedied. A customized application program can be designed in combination with a tissue analysis system.

Organic Advantage

The organic acids may help promote beneficial organisms promoting healthy turf.

Compatibility

Micronutrients are compatible with many other turf care liquids and may be blended with other liquid saving application costs.

SOIL CONDITIONER

Product #	Description
57602	Multi-Purpose (6-0-0), 2.5 gallon

SOIL REMEDIATION

Product #	Description
57060	Nutralize (12-0-0-26S), 2.5 gallon
57612	Kleenstart (6-0-0), 2.5 gallon

BIOSTIMULANTS

Product #	Description
57310	Cyto-Gro, 1 gallon

MOISTURE MANAGEMENT

Product #	Description
57275	H30, 2.5 gallon

NPK NUTRIENT BLENDS

Product #	Description
57507	TurfPlex IV (20-2-3), 2.5 gallon
57123	Greens Plus (14-4-10), 2.5 gallon
57126	Greens Plus (12-0-12), 2.5 gallon
57132	Enviro K (0-0-30), 2.5 gallon
57527	Turf Starter (8-16-5), 2.5 gallon

MICRONUTRIENTS

Product #	Description
57180	NutriSolve, 2.5 gallon
57189	Calcium Plus, (8-0-0), 2.5 gallon
57198	Iron Plus Mn (12-0-0-6-2), 2.5 gallon
57200	Boron Plus Micronutrient, 1 Quart
57201	Manganese Plus (0-0-0-5), 2.5 gallon
57502	Tuff Greens (0-0-13), 2.5 gallon
