Lawn Edgings

Valley View Industries

Valley View's control standards guarantee the finest material and workmanship used in the design and construction of all our products. The edgings are made super strong by using premium resins. UV inhibitors are added to prevent damage from the sun. And the heavy duty top bead is designed to give planting beds that clean edge while containing mulch and rocks.

Flat Strip Edging

Valley View Industries

Valley View's Black Diamond Edging has set the industry standard for quality for over 40 years. The choice of contractors looking for highest quality landscape edging available. The Ace of Diamond will provide worry free results with proper installation at affordable pricing. Diamondback Edging has unique perpendicular corrugated side walls and a double V-lip flange that will help reduce horizontal and vertical shifting.

Diamond Lok

Valley View Industries

Diamond-Lok Paver Edging is the choice when you need the best in paver edging. It is designed to provide easy installation and create a permanent edge restraint under the most demanding heavy traffic conditions. Available in flexible and rigid configurations, and "T" and "L" designs, the Diamond-Lok line can fit any application you need to fill.

Aluminum Edging

Curv Rite Inc.

Curv-Rite Aluminum Edging can be used in a variety of applications from separating lawns from bed areas or as a bed divider separating mulch from flower beds. It can also be used in conjunction with stone to be used as pathway edging or as a maintenance edging around the perimeter of a building.

ValleyView Industries

The Landscape Industry Standard

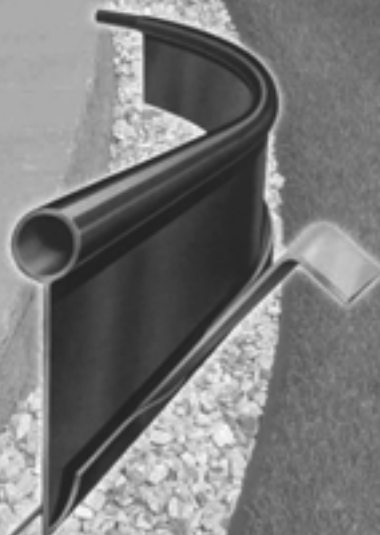

DIAMONDBACK ROYAL

T* Shape Design

The "gripping" power of Diamondback Royal adds stability in various soil conditions. Our premium plastic composition is second to none for this addition to the family of Valley View products.

ACE OF DIAMOND

Ace of Diamond is the right choice for the contractor who demands a quality landscape edging.

DIAMOND PAVER EDGE

The Diamond Paver Edge is our most "solid/rigid" paver restraint, yet easily converts to flexible for curves. It is the most economically priced "solid/rigid" restraint on the market!

VENUS PLANTERS

Venus Planters are available through special order only.

8 Different Sizes
Up to 33" Tall!

Venus Planters, Saucers, and Trays are commercial grade, decorative planters. They are more attractive than concrete planters and are available in many colors and sizes. Venus Planters are guaranteed for 20 years and safe to leave outdoors all winter!
