Dekorra Rocks

Model 101 The 101 Rock with its classic shape and generous dimensions is the perfect rock for many applications

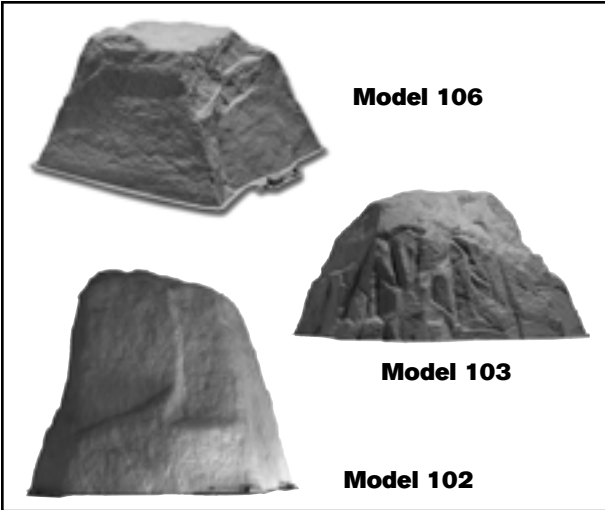

Model 102 Tall and rugged, the bold looking 102 rock handles jobs where height is a concern.

Model 103 To conceal large unsightly objects, call on the mountainous 103 rock. This expansive and majestic rock has plenty of size for big projects.

Model 104 Perfect for covering large unsightly objects in landscapes such as, pressure tanks and well assemblies, electrical transformers or pool filter and pumps.

Model 106 The squared shape of this little rock provides maximum coverage in minimal space. Lettering or speakers may be affixed to this rocks flat sides.
