

Growth Regulators

ATRIMMEC *PBI Gordon*

A.I. Atrinal

A systemic plant growth regulator which works by blocking the plant hormones that stimulate growth. Applied as a foliar spray, it is absorbed by the leaves and translocated to the shoot tips where it interrupts apical dominance and temporarily stops shoot elongation.

6621-003 Quart
6621-01 1 Gallon

PRIMO MAXX *Syngenta*

A.I. Trinexapac-ethyl

Primo MAXX for turf growth management reduces the frequency of mowing and the amount of grass clipping by reducing the growth of warm and cool season turfgrasses. Other benefits, such as increased turf density, color, and turf quality, are frequently observed after Primo MAXX applications. Primo MAXX can be applied to well-maintained, quality turfgrass areas.

22534 1 Gallon
22535 10 Gallon LinkPak

CUTLESS *SePro*

A.I. Flurprimidol

Cutless is a unique turf growth regulator that enhances the quality of fine turfgrass. Cutless improves turfgrass playability, reduces mowing time, reduces clippings, improves water utilization, makes turf more wear resistant and improves turfgrass color and appearance.

CTEC2817 1 Gallon, MEC
CTEC2824 2.5 Gallon, MEC
FDWP3082 30 lb. Bag, 50W

PROXY *Bayer Environmental Science*

A.I. Ethephon

An application of Chipco brand Proxy slows the growth of turfgrasses thus reducing the required frequency of mowing and the volume of clippings collected. Proxy is labeled for use on fairways, roughs and commercial turfgrasses, including bentgrass (fairway cut), Kentucky bluegrass, perennial ryegrass, tall and fine fescue.

20896 2 x 2.5 Gallon Case

EMBARK T+O *PBI Gordon*

A.I. Mefluidide

This new generation turf and ornamental growth regulator provides turf management professionals with an efficient means of reducing the rate of growth and volume of clippings by 50% or more. Embark is labeled for use as a foliar application on all major species of turf grasses and most fine turf sites including home lawns.

0541-01 1 Gallon

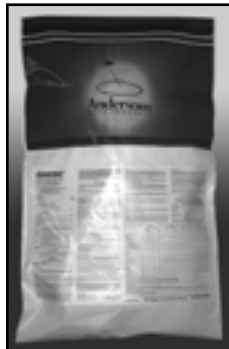

TRIMMIT 2SC *Syngenta*

A.I. Paclobutrazol

Trimmit® 2SC is a plant growth regulator for turfgrass that slows grass growth for up to two months after application. Trimmit 2SC suppresses Poa annua in bentgrass and perennial ryegrass greens, fairways and tees, while enhancing overall turf quality.

76970 1 Gallon
39743 2.5 Gallon

GOVERNOR G *The Andersons*

A.I. Trinexapac-ethyl

Governor G growth regulator can be used when a granular product is preferred over a spray application. Ideal for hard to mow areas. Reduces clippings by up to 50%.

AGCGR32 32 lb. Bag

TURF ENHANCER 2SC *The Andersons*

A.I. Paclobutrazol

Turf Enhancer 2SC improves turf quality and reduces vertical turf growth, which in turn reduces clippings and water use.

AGC8789 64 oz.

LEGACY *SePro*

A.I. Flurprimidol, Trinexapac-Ethyl

Legacy Turf Growth Regulator (TGR) integrates patented synergistic turf growth regulator technology to reduce stem elongation and leaf blade length in perennial cool- and warm-season turfgrasses on golf courses resulting in a more compact and dense growth habit.

LGEC3124 2.5 Gallon Jug
