

Ice Control Products

METEOR MELT™ *Reinders*

A premium ice melter designed for high performance in industrial and commercial applications. Melts to -20° F, quickly creates heat to provide fast and safe de-icing. Safe blue dye indicator for spreading visibility. Odorless, does not track, safe on vegetation, sidewalks and driveways when used as directed. Blend of Magnesium Chloride, Calcium Chloride and Sodium Chloride.

Product #	Description
100-062X	50 lb. Bag
103-062X	40 lb. Pail
101-062X	20 lb. Handi-Bag
X-062X	2,000 lb. Tote (special-order)

ICE CONTROL SALT *Morton*

Pre-screened for uniform sizing. 50 lbs. packaged in film bags for inside/outside storage. Most frequently used and inexpensive de-icer.

Product #	Description
51-061X	50 lb. Bag
70-061X	2,000 lb. Tote Bag

* Alternative products available for delivery outside of Wisconsin

NO-MORE ICE™ *Reinders*

An economical blend for melting snow and ice at temperatures below 0°F. Odorless, safe on vegetation, and pavement and no tracking when used as directed. Contains Sodium and Calcium Chlorides.

Product #	Description
85-062X	50 lb. Bag
87-062X	12 lb. Shaker Jug (Case of 4)
X-062X	2,000 lb. Tote (special-order)

CALCIUM CHLORIDE PELLETS *Oxy-Chem*

Melts to -25°F. Provides a heat reaction to work immediately, safe on concrete and vegetation when used as directed. Doesn't leave any powdery residue.

Product #	Description
17-062X	50 lb. Bag
10-062X	50 lb. Pail

ENVIRO-MELT™ *Reinders*

An environmentally safe organic compound that melts to 0° F. No salt or chlorides so safe to use around children, pets and plants. Easy to handle without gloves or protective clothing.

Product #	Description
391-062X	20 lb. Bag
392-062X	25 lb. Pail
39-062X	8 lb. Jug (Case of 4)

MAGNESIUM CHLORIDE PELLETS *Dead Sea Works*

Melts to -25°F. Less corrosive to concrete and metal than Calcium, Potassium or Sodium Chlorides. Safe to handle for humans, animals, and vegetation. Does not track inside.

Product #	Description
47-062X	50 lb. Bag

LANDSCAPER'S CHOICE™ *Kissner*

Melts snow and ice to -22°F. Calcium Magnesium Acetate protects against damage to concrete and is biodegradable. Liquid sprayed granules act as barrier to chlorides. It won't harm grass, trees or vegetation when used as directed. Safe green crystals for spreading visibility.

Product #	Description
150-062X	50 lb. Bag
152-062X	2,000 lb. Tote (special-order)

SAND IN A TUBE

Safest for new concrete. Provides traction.

Product #	Description
18-062X	60 lb. Bag

ORGANIC ADDITIVES AND LIQUID PRODUCTS

Reduce the corrosion factor of salt, reduce effective melting temperature to below 0°F, and provide 2-3 day anti-bonding residual effect.

Geo Melt55 Sugar Beet Concentrate, Organic Liquid Accelerator

- Can be applied/blended with bulk rock salt to reduce salt usage by up to 30%, lowers effective ice melt temp to -30°F, and reduces corrosion factor. Product is viscous, and needs special equipment. Do not use alone.

Geo SC316 RTU Liquid Blend of 30% GeoMelt, 10% Calcium Chloride, 60% Sodium Chloride

- Best used for sidewalks, steps, and areas of high foot traffic. Because of miscibility; can be used in a pump or backpack sprayer; can also be used for parking lot/pavement application. Effective temp -15°F.

Geo C7 RTU Liquid Blend of 30% GeoMelt & 70% Calcium Chloride

- Can apply directly to parking lots, pavement, sidewalks, or spray at spinner, or mix in auger. Effective temp -30°F.

Geo M6 RTU Liquid Blend of 40% GeoMelt & 60% Magnesium Chloride

- For parking lots & pavement application with straight stream nozzles. More viscous or thicker due to the higher concentration of GeoMelt in product. Do NOT use for sidewalks. Effective temp -35°F.

Geo K RTU Liquid Blend of GeoMelt & Potassium Acetate – NO CHLORIDES!

- Road surfaces or sidewalks; apply with straight stream nozzles. Safe for new concrete, masonry. Effective temp -40°F.

Liquid Ice Melt Application Equipment

Call for full line of Liquid Ice Melt & Spray Tools!

Quickly Drops into most 80-120# spreader. (Spreader not included)
