

**Seed Mulch / Erosion Control**

**Seed Aid**

*Profile*

Profile Seed Aide outperforms paper mulch and straw mulch by providing a combination of cellulose, wood fiber mulch and organic tackifier. Independent university testing showed Profile Seed Aide outperformed in all categories:

- Less Soil Erosion
- Less Water Runoff
- Retains More Seed
- Greater Average Plant Height and Dry Weight
- Higher Percentage of Germinating Seed

Product #	Description
Seed Aide-50	50 lbs.

**Lawn Starter Pro - Turf Establishment Mulch**

*Encap*

ENCAP's Lawn Starter Pro is a granular mulch that can be applied with most broadcast spreaders. The granules are made from recycled paper and contain ENCAP's proprietary blend of soil stabilizing polymers. The polymers are designed to improve soil conditions and keep seed, soil and fertilizer right where you put them, even after it rains. The polymers also help to condition the soil by creating micro channels that help to get water and nutrients into the root zone. This improves germination and overall seed establishment.

All of this in a product that is clean and easy to use. ENCAP's Lawn Starter Pro is fast and easy to apply with no cleanup saving you time, money and labor. Lawn Starter Pro is the earth – friendly choice of landscape professionals.

EN10145	50 lbs.

**PAM-12® Plus - Slope Stabilizing Mulch**

*Encap*

ENCAP's PAM-12® Plus is a granular mulch that can be applied with most broadcast spreaders. The granules are made from recycled paper and contain ENCAP's proprietary blend of soil stabilizing polymers. The polymers are designed to improve soil conditions and keep seed, soil and fertilizer on sloped surfaces right where you put them, even after it rains. The polymers also help to condition the soil by creating micro channels that help to get water and nutrients into the root zone. This improves germination and overall seed establishment.

All of this in a product that is clean and easy to use. ENCAP's PAM-12 Plus is fast and easy to apply with no cleanup saving you time, money and labor. PAM-12 Plus is the earth – friendly choice of landscape professionals.
