- UNION UT77003**
- 10 cubic ft Poly Tray
 - Wood Handles
 - Dual 2-Ply Radial Tires

SUPERIOR HEAVY-DUTY TOOLS **STRUCTRON** ANATOMY OF A WINNER

CHEAP TOOLS ARE NEVER A BARGAIN.

Safety yellow reinforced fiberglass handle
Strong yet lightweight hollow fiberglass handle provides maximum durability and visual impact.

ProGrip™ comfort grip
Made of durable textured vinyl with a non-slip surface for a secure grip with excellent shock-absorbing protection. Unique double-wall construction for greater durability. Weather resistant.

Highest quality tool head
Spring steel blade flexes but won't bend or break as easily as other shovel blades. Extra-sharp heat-treated, high-carbon stamped steel head provides the ultimate in durability. Wears better. Lasts longer.

PowerCore™ solid fiberglass reinforcing rod
Extends 12.5 inches from the handle into the shank and blade for maximum strength at this critical stress point.

PermaGrip® steel collar
A rivetless ring of steel connects the shovel neck, handle, and fiberglass PowerCore™ rod, making it one solid unit. Provides the strongest head to handle connection.
