

DewCure is a unique, proprietary product developed specifically to reduce excess leaf moisture caused by dew, guttation, rain, irrigation, and frost.

Control is achieved by inhibiting moisture accumulation and by promoting faster drying following the introduction of moisture.

DewCure is formulated to adhere directly to the leaf surface, providing long-lasting moisture inhibition. Once bonded, DewCure will not wash off as surfactants do, but instead will cover the leaf with a water-resistant coating that is durable once dry.

DewCure

Product #	Description	Size
DEW-2.5	DewCure Moisture Suppressant	2.5 Gallon jug
DEW-30	DewCure Moisture Suppressant	30 Gallon drum
DEW-55	DewCure Moisture Suppressant	55 Gallon drum

Advanced formulation improves on TriCure Surfactant's effect in treating and preventing hydrophobic soil conditions. TriCure AD provides optimum moisture balance critical for the prevention of dry, hydrophobic soil conditions, and successful water management.

Designed for treatment of native soils with high silt/clay content that are prone to compaction, TriCure Micro is formulated to penetrate heavy soils and treat the smallest micro pore space aiding infiltration and desired water holding.

TriCure 25 is a biodegradable, non-phytotoxic wetting agent designed as an injectable for treating hydrophobic soils as well as thatch layers caused by decomposing plant materials.

TriCure Granular is formulated to provide a convenient and effective method for the treatment and prevention of hydrophobic conditions in soils. The product utilizes Biodac (a cellulose complex) as an inert carrier for the chemical surfactant TriCure.

TriCure Pellets are formulated for use as a fast, convenient method of applying TriCure Surfactant through hose-end applicators to prevent and treat hydrophobic soils.

Tricure

Product #	Description	Size
TRI-100-2.5	Tricure AD 100% Surfactant	2.5 Gallon jug
TRI-100-30	Tricure AD 100% Surfactant	30 Gallon drum
TRI-100-55	Tricure AD 100% Surfactant	55 Gallon drum
TRI-MICRO-2.5	Tricure Micro Surfactant	2.5 Gallon jug
TRI-25-5	Tricure 25% Injectable	5 Gallon drum
TRI-25-30	Tricure 25% Injectable	30 Gallon drum
TRI-25-55	Tricure 25% Injectable	55 Gallon drum
TRI-GRAN	Tricure Granular	40# Bag
TRI-PEL	Tricure Pellets	12 x 3 Tubes Case
Tri-Pel Applicator	Applicator for Tricure Pellets	Each
