

**FLIGHT CONTROL PLUS** Arkion Life Sciences  
A.I. 9,10-anthraquinone

FlightControl® PLUS works in two ways:  
1. Anti-feedant (consequence) - Geese experience a temporary but very effective digestive irritation, usually within 20 minutes, when they eat turf treated with FlightControl® PLUS. 2. Visual Warning (threat) - Geese have four retinal cones and have the unique ability to recognize FlightControl® PLUS in the ultraviolet light spectrum in addition to the visible light spectrum in which humans see.

**69969-01** 1 Gallon

**TALPIRID**

Bell Labs

TALPIRID is the first and only mole bait designed, developed and scientifically proven to kill moles. Talpirid's size, shape and feel let moles consume the bait in the same manner as their primary food source, the earthworm.

**M07160** 2 x 10 Packs

**REJEX IT MIGRATE**

Ceannard

Rejex It Wildlife Management Products control wildlife problems with behavior modification repellent technology. Rejex It products are used for the conservation of wildlife. Their function is to provide alternate methods for the control of damage caused by nuisance animals. Our solution to bird, deer and other animal problems may be achieved using aversion-training techniques.

**1310RJ01** 1 Gallon

**TREE GUARD**

Becker Underwood

Tree Guard® deer repellent's ready-to-use formulation sprays on milky and dries to a clear, attractive coating. Non-toxic to plants, use it to protect all trees, shrubs and flowering ornamentals but do not use it on anything grown for human consumption.

**1310TG025** 2.5 Gallon

**Insecticides**
