

The Sanctuary Advantage

The Sanctuary is a family of natural-based fertilizers that are designed to provide the foundation for healthy turf and soil systems. The Sanctuary products combine the synergistic benefits of high quality organic protein meals and essential mineral nutrients to feed the soil and the turf. This balanced approach to turfgrass management brings solid agronomics and sound economics together.

Product Benefits

- Provides Outstanding Residual Color
- Enhances Disease Management
- Reduces Nutrient Leaching
- Improves Soil Structure
- Enhances Stress Tolerance
- Increases Natural Soil Microbial Populations
- Reduces Salt Levels
- Enhances Soil Vigor

Soil Life 8-3-6 is a blend of protein meals inclusive of feather, fish, meat & bone and blood meals. This all natural product provides a flat linear release of nutrients that offers outstanding residual color. The product is ideal for summer stress & disease management, turf recovery after aeration and as a late fall feed. The product is also ideal for flower, ground cover and ornamental bed applications.

SF8-3-6G (80 SGN) 50 lbs
SF8-3-6F (200 SGN) 50 lbs

Stress Life 12-2-12 blends protein meals, urea and minor nutrients to deliver a more complete fertilizer for nutrient deficient soils. This 1:1 ratio of nitrogen to potassium is ideal for turf under stress during hot weather. This product also provides excellent residual color and rooting for all turf types.

SF12-2-12G (100 SGN) 50 lbs

Fos Free Life 10-0-10 offers a 1:1 ratio of nitrogen to potassium for added stress tolerance. This slow release nitrogen product provides a flat, even feed to the turf. Plus, this non-phosphorus product is ideal in environmentally sensitive areas inclusive of wetlands and waterways.

SF10-0-10F (200 SGN) 50 lbs

Sanctuary 15-1-3 provides a cost-effective lawn care, landscape and fairway natural based fertilizer product. This product combines the nitrogen benefits from feather and blood meals, ammonium sulfate and Uflexx, a trademarked product of Agrotain.

SF15-1-3F (200 SGN) 50 lbs

Sanctuary Micro Turf and **Sanctuary Synergy** offer a cost-effective product that meets the demands for maintaining high quality turf. The Sanctuary Micro Turf product contains a blend of iron, manganese, zinc and copper and the Sanctuary Synergy contains a blend of iron, manganese and zinc for enhanced color, growth and stress tolerance. Plus, these products contain silicate to aid with cell wall thickness for enhanced stress tolerance and problem management.
