

RAIN BIRD

Sprinklers

Rain Bird Spray Heads

Rain Bird provides the highest quality and most reliable spray head on the market. With a wide range of sizes, features and nozzles, you'll have no trouble finding the right product for your landscaped area.

Rain Bird Impact Heads

From the company that invented the first impact sprinkler comes a full line of rugged impacts for every application. In long-lasting brass and stainless steel, in full or part-circle models, Rain Bird impacts keep landscapes lush and green all year long.

Rain Bird Rotor Heads

Rain Bird rotors set the standard for durability, and come with features to ensure reliable performance. There's a Rain Bird rotor for every application—for low pressure and steep slopes, high wind areas, even vandal prone areas.

RAIN BIRD

Valves

Rain Bird offers a complete selection of valves in a variety of sizes and with the features you need. Whether you require the basic DV series or the versatile PEB series, with optional pressure regulation, or the "Scrubber" model for effluent water applications, Rain Bird has what you need.

RAIN BIRD

Controllers

No company offers a wider assortment of irrigation controllers than Rain Bird. Whether you need just the basics, or you want to centralize the watering for a city, Rain Bird can show you how to get better control of your water resources, while saving you money and time. The ESP LX series offers a rich menu of control features that are well suited to parks, athletic facilities or any industrial or institutional property. And with Rain Bird's PC based MAXICOM central controller, you can coordinate all of your watering needs from one location.
