

FERTILE EARTH

Liquid Fertilizer

Now you can fertilize while you water with the Fertile Earth ProFeeder; a revolutionary fertigation device. The Fertile Earth ProFeeder delivers small amounts of extraordinary plant food to your entire landscape through your sprinkling system. The Fertile Earth ProFeeder takes the hassle out of fertilizing and produces better results than traditional methods of fertilization. It's simple to use, cost-effective and best of all, safe for use around children and pets. Fertilize the way professional growers do and get better results with less water and chemicals.

Product #	Description
P1X	FERTILE EARTH PROFEEDER
P1X-ETC5G	FEEDER W/ 5 GALLON TANK AND ENCLOSURE

Pro Series Formula with BioNatra

Just attach a bottle of FERTILE EARTH PRO FORMULA directly to the ProFeeder and you will be fertilizing through your sprinklers. There is no pouring and no mess. And, our PRO SERIES FORMULAS contain BIONATRA; an all-natural bio-stimulant that enhances the effects of the fertilizer ingredients in each formula. BioNatra stimulates deep root development and helps make nutrients already in the soil available to plants by promoting natural biological activity in the soil. BioNatra also contains trace amounts of micronutrients, vitamins, enzymes, complexed carbohydrates and amino acids not found in traditional fertilizers.

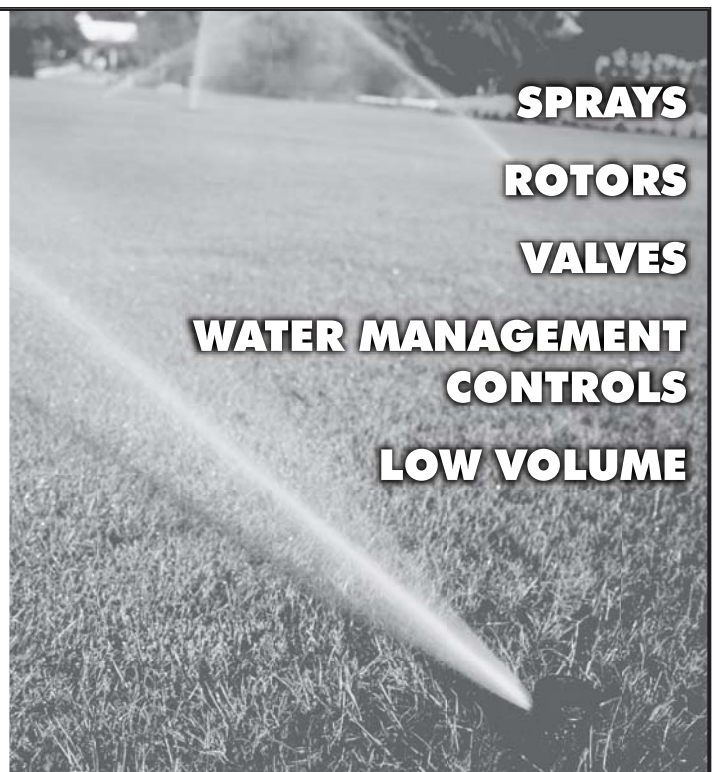

Product #	Description
