

KIFCO

Water Reel

Kifco Water-Reels are portable, reliable, simple, automatic and affordable. Designed for areas up to 35 acres, Kifco B-Series Water-Reels are ideal for athletic fields, sports complexes, parks & recreation, horse farms & arenas, pastures, gardens & nurseries, ranches & hobby farms, cemeteries & churches, residential & commercial, and smaller agricultural fields.

Please contact Reinders to see how a Kifco Water-Reel can meet your irrigation needs.

Portable • Reliable • Simple
Automatic • Affordable

The Most Trusted Name in Water-Reels

WATERTRONICS

Watermax Pumpstation by Watertronics

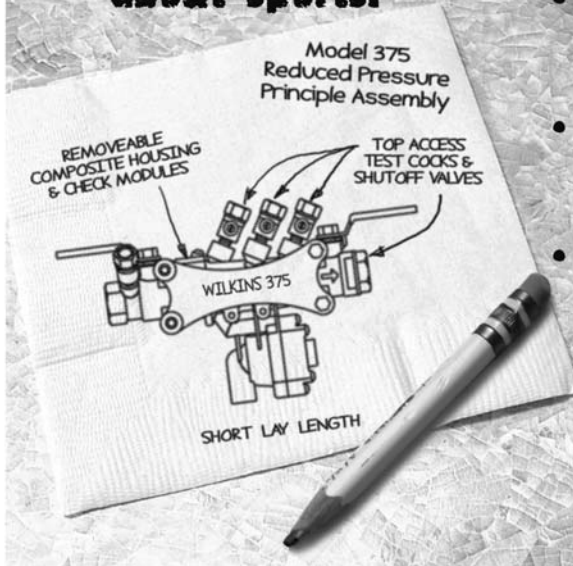

Solve your low pressure areas on your athletic field or landscape turf projects with Watertronics. These compact, self-contained units are equipped with flow sensors and by-pass piping that quickly sense when a demand for greater pressure is required and spring into action. Most applications require only a single phase 230-volt power source. Available in 15 to 300 GPM models and motor sizes from 1 to 30 HP.

Please call your Reinders sales representative for more information.

**When Our Engineers
Go To Lunch,
They don't talk
about sports!**

- Entire flow housing is removable to enable check access for cleaning or repair
- Easy to winterize by removing wetted components between shutoff valves
- Simple design - composite housing and check modules resist corrosion
- Sizes available: 3/4", 1", 1 1/4", 1 1/2" & 2"
