- AE-16** 1/8" x 4" x 16' Commercial Grade Aluminum Edging
- AE16 Stake** Aluminum Stake

### TERRA-MULCH

Profile Products

#### Wood Fiber

100% wood fiber that holds twelve times its weight in moisture, therefore enhancing seed survival rates. Terra-Mulch Wood Fiber when mixed with seed and fertilizer forms a homogeneous slurry that ensures an evenly distributed stand of grass.

- 20-1386** TerraWood™, 50 lb. bale

### TERRA BLEND 70/30

Profile Products

Combination of 70% wood fiber with 30% cellulose manufactured from the highest quality raw materials. Terra-Mulch Blend is designed to pump more easily than 100% wood fiber.

- 21-1386** Terra-Blend 70/30, 50 lb. bale

### MAT-FIBER

Mat Inc.

(Green bales, Approx. 30 bales per acre)

Mat-Fiber mulch helps you beat the elements by giving your seeds the best protection available for growing a solid, healthy lawn or ground cover.

- 10-1382** Mat-Fiber Hydro-Mulch, 50 lb. bale

### MAT-FIBER PLUS

Mat Inc.

(Purple bales, Approx. 30 bales per acre)

For enhanced erosion control protection, Mat-Fiber Plus is the industry standard. Like Mat-Fiber, it's made of whole wood fiber but contains 3% (by weight) high-grade organic tackifier.

- 11-1382** Mat-Fiber Plus, 50 lb. bale

### MAT-BLEND 50/50

Mat Inc.

(Orange bales, Approx. 30 bales per acre)

We've combined the economy of clean, recycled newsprint with the powerful performance of Mat-Fiber, the industry standard for whole wood fiber mulch.

- 12-1382** Mat-Blend 50/50, 50 lb. bale

### MAT-BLEND 50/50 PLUS

Mat Inc.

(Blue bales, Approx. 30 bales per acre)

Mat-Blend 50/50 Plus is a special blend of whole wood fiber and clean, recycled newsprint, plus high quality Mat-Tack tackifier.

- 13-1382** Mat-Blend 50/50 w/tack, 50 lb. Bale
