

LOW VOLTAGE LIGHTING CABLE

- 18/2-CABLE-100 18/2-CABLE-250
- 12/2-CABLE-100 12/2-CABLE-250
- 12/2-CABLE-500
- 10/2-CABLE-250 10/2-CABLE-500
- 8/2-CABLE-250

STRANDED WIRE STRIPPERS #46515

Strips #10 to #20 stranded wire. Ergonomic comfort handle great for large jobs.

KICHLER PRO CONNECTOR #K15529BL

Insert the unstripped wires & squeeze the gel-filled hinged connector closed until it locks. That's it. It even includes a probe hole for measuring voltage after the connection is made.

THE ONE AND ONLY ACE® CONNECTOR

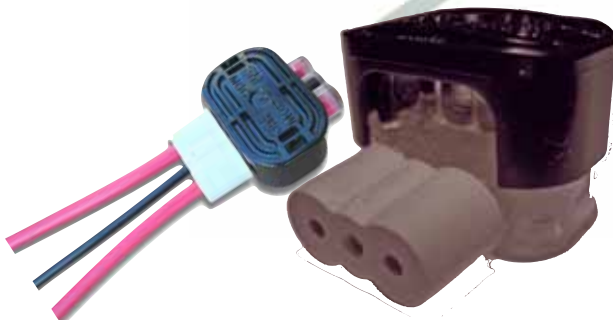

Brass barrel Ace Connectors provide a solid, water resistant connection for low voltage fixtures. The finished connection lays in-line and flat in the trench and is almost impossible to damage or to pull apart. Three sizes.

- Small:1515-DB
- Medium:1525-DB(2-pack),
- Medium:1525-25-DB(case of 50)
- Large: 1538-15DB(case of 30)

KING SILICON FILLED WIRE NUTS #61235

accepts the following wire combinations:
3 to 10 #18, 2 to 4 #12, 2 to 3 #10
Sold in packages of 20 or save with bulk packs of 100.

3M™ MOISTURE GUARD CONNECTOR

- #270MGC(bag of 25)
- #270MGCJUG(jug of 100)
- Wire Ranges: Outer Ports: #18-#12
- Center Port: #20-#16

No stripping of wires. The connector utilizes the proven 3M "Insulation Displacement Connector" method whereby a copper element cuts through the sides of the wire insulation and applies inward pressure to the copper conductor. This makes a secure, reliable connection.

CABLE STAPLES

Keep cable neatly secured in the trench. Sold in bags of 25 or in bulk boxes of 1000.
#TLS6 Bag of 25
#217 Box of 1000
