Benefits of LED Lights

- 10 brilliant colors & 7 unique bulb styles
- High strand connectivity
- Very low energy use
(less than .02 amps/strand - compare to .2 amps/strand that a traditional mini light draws. 80-90% less power used than with traditional incandescents)
- Virtually unbreakable acrylic plastic
- Safe - cool to the touch
- Up to 50,000 hour bulb life
- Available in commercial and traditional grades
- Installation accessories available for commercial LED lights
- Energy Star Approved
- Also Available:
C7 & C9 retrofit bulbs, par floodlights, LED ropelight, battery operated, beaded garland, prelight LED greenery, cherry trees, and more
