product applied once. Follow the recommendation on each product label for the most restrictive application interval for each turfgrass. Application of this tank mixture during frost periods may cause temporary turf discoloration.

**Growth Suppression:** An application of PROXY Growth Regulator slows the growth of turfgrasses, thus reducing the required frequency of mowing and the volume of clippings collected. For best turfgrass growth regulation, apply ProGrowth Regulator when daytime air temperatures are 65°F and rising. ProGrowth Regulator should only be applied once turfgrass mowing heights have been established for the season. Avoid multiple applications of ProGrowth Regulator in areas where excessive thatch has accumulated.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category A on an EPA chemical-resistance selection chart.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

- Wear eye protection that meets standards of the Occupational Safety and Health Administration (OSHA) and the American National Standards Institute (ANSI).
- Use nitrile or neoprene gloves.
- Use safety shoes with non-skid soles.
- Use a respirator or other self-contained breathing apparatus (SCBA) when working in areas where dusts could be generated.
- Use a high-visibility vest.
- Use long-sleeved shirts.
- Use long pants.
- Use hard hat when required.
- Use safety glasses.
- Use hearing protection.

HAZARDS TO THE ENVIRONMENT

Some materials of which are suspected to be hazardous to the environment. Use of this product may result in contamination of water or soil. Follow all label directions and precautions for proper use. Do not apply PROXY Growth Regulator to a site where it will contaminate water used for irrigation or domestic purposes.

STORAGE AND DISPOSAL

Do not contain pesticides in water when disposing of equipment washwaters.

ENVIRONMENTAL HAZARDS

Do not contaminate water, food, or feed by storage and disposal.

FIRST AID

If swallowed:

- Do not give anything by mouth to an unconscious person.
- Call a poison control center or doctor for treatment advice.

If inhaled:

- Move person to fresh air.
- Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean protective clothing.

If on skin:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

GENERAL USE

Foliar application of PROXY Growth Regulator will provide suppression of Poa annua and white clover seedheads. Make the initial application prior to the emergence of new seedheads. A period of 2-3 weeks after application is required for maximum performance. Initial applications of PROXY Growth Regulator may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulations. Read entire label before using this product.

PRECAUTIONARY STATEMENTS

DIRECTIONS FOR USE

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- Do not apply this product in a way that will contact waters or other property, either directly or by drift.
- Do not apply this product in or on any water that is used as a source of drinking water by humans or by domestic animals.

PRECAUTIONS AND RESTRICTIONS

Do not use this product for purposes other than those listed on the label.

1. Do not treat turfgrass with your pest system program in other states due to poor soil conditions, drought, disease, or insect damage.

2. Do not use PROXY Growth Regulator in areas where excessive thatch has accumulated.

3. Do not contaminate water used for irrigation or domestic purposes.

4. Do not apply PROXY Growth Regulator through any type of irrigation system.

5. Do not apply PROXY Growth Regulator to turf in the area during application.

6. Avoid spray drift to nearby crops after 2 applications of PROXY Growth Regulator for Phoenix seedhead suppression.

7. Scouting may occur on creeping bentgrass cultivars after more than 2 applications of PROXY Growth Regulator for Phoenix seedhead suppression.

8. PROXY Growth Regulator has been used successfully on many bentgrass cultivars. Tolerance testing should be done on new cultivars before extensive use.

9. Mix only the amount of spring you expect to use each day. Do not allow mixed solution to stand overnight.

10. Do not apply PROXY Growth Regulator to turf in the area during application.

11. Do not exceed a maximum of 10 oz of PROXY Growth Regulator per 1,000 sq ft per year.

EQUIPMENT CLEANING

1. Prune thoroughly all exposed acrylic-plastic materials and painted surfaces with a detergent and water before one hour after spray application.

2. Rinse thoroughly all exposed acrylic-plastic materials and painted surfaces with a detergent and water within one hour after exposure to PROXY Growth Regulator. Do not apply PROXY Growth Regulator to turf in the area during application.

TURF

Seedhead Suppression: Foliar application of PROXY Growth Regulator will provide suppression of Poa annua and white clover seedheads. Make the initial application prior to the emergence of new seedheads. A period of 2-3 weeks after application is required for maximum performance. Initial applications of PROXY Growth Regulator may be made to predominantly Poa annua or white clover seeded areas, but not less than two weeks after the previous application. Follow other general recommendations and precautions on the label.

Determine which type of growth regulator you plan to use based on your site. Reducing applications results in more evenly spaced seedheads. The number of applications may be reduced to two periods of 2-3 weeks after application is required for maximum performance.

Applications of PROXY Growth Regulator should be made to predominantly Poa annua or white clover seeded areas, but not less than two weeks after the previous application. Follow other general recommendations and precautions on the label.

PRECAUTIONS AND RESTRICTIONS

Do not use this product for purposes other than those listed on the label.

**FIRST AID**

**IF IN EYES:**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:**
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

**IF INHALED:**
- Move person to fresh air.
- If person is not breathing, call 911 or ambulance, and then give artificial respiration preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

---

**NOTE TO PHYSICIAN**

Probable mucosal damage may contraindicate the use of gastric lavage. No specific antidote is available. All treatments should be based on observed signs and symptoms of distress in the patient. Overexposure to materials other than this product may have occurred.

Victims of severe overexposure, by inhalation, should be kept under medical observation for up to 72 hours for delayed onset of pulmonary edema. In a victim of overexposure by ingestion, careful gastric lavage is required due to the possibility of stomach or esophageal perforation. This material is an acid, but the use of alkaline substances to neutralize it is contraindicated.

Have the product container or label with you when calling a poison control center or doctor for treatment.

---

**PRECAUTIONARY STATEMENTS**

**DANGER**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**
Corrosive: Causes irreversible eye damage. Wear safety goggles when handling. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Do not inhale vapors, as this product will irritate mucous membranes.

**ENVIRONMENTAL HAZARDS**
Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

Refer to attached leaflet for complete Directions for Use and Precautionary Statements.

---

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**PESTICIDE STORAGE**
Store in original container and keep tightly closed. Store in a cool dry place.

**PESTICIDE DISPOSAL**
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL**
Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Offer for reconditioning, if appropriate. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by incineration or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive: Causes irreversible eye damage. Wear safety goggles when handling. Harmful if swallowed or absorbed through skin. Do not use this product in a manner inconsistent with its labeling.

DANGER

Applicators and other handlers must wear long-sleeved shirts and long pants, chemical-resistant gloves made of any waterproof material such as polyethylene or polyvinyl chloride, shoes plus socks and protective eyewear, and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulations. Read entire label before using this product.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage

Store in original container and keep tightly closed. Store in a cool dry place.

PRECAUTIONARY STATEMENTS

DANGER TO HUMANS AND DOMESTIC ANIMALS

Causes irreversible eye damage. Wear safety goggles when handling. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Do not inhale vapors, as this product will irritate mucous membranes.

Personal Protective Equipment (PPE)

Some materials that are chemically-acidic to this product are listed below. If you want more options, follow the instructions for category A on an EPA chemical resistance selections chart.

Prohibits the use of this product for purposes other than those listed on the label. Do not use this product in a manner inconsistent with its labeling.

PRECAUTIONS AND RESTRICTIONS

Do not use this product for purposes other than those listed on the label. Do not treat turf with this weed system under conditions that may add to the product's systemic activity when soil temperatures are low or when soil conditions are less than ideal due to poor soil conditions, drought, disease, or insect damage.

Do not use PROXY Growth Regulator in areas where excessive thatch has accumulated.

Do not contaminate water used for irrigation or domestic purposes.

Do not apply PROXY Growth Regulator through any type of irrigation system.

Avoid spray drift to nearby crops after 2 applications of PROXY Growth Regulator for turf.

Scalping may occur on creeping bentgrass cultivars after more than 2 applications of PROXY Growth Regulator for turf.

Stale Seedhead Suppression: Soil application of PROXY Growth Regulator will provide suppression of Poa annua and white clover seedhead.

Test tank mixes with other products on a small area before using widely.

Never rinse out of spray equipment or into a mix tank or store rinsate for later use or disposal. Clean for 10 seconds before the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary toilet or by incineration if allowed by state and local authorities, by burning, or put it out of smoke.

GENERAL USE

Proxy Growth Regulator is a plant growth regulator that may be used to suppress the formation of seedheads of various plants including Poa annua and white clover. It is also used to control turf grasses to suppress the growth of certain cool season grasses. Proxy Growth Regulator is foliar absorbed and is most effective on actively growing healthy turf. For best results, apply in sufficient volume of water to provide uniform coverage. Use of a spreader/sticker with an application of PROXY Growth Regulator is not necessary. Tank Mixing with Prow Max: Tank mixture of PROXY Growth Regulator at 0.5 to 1.0 lb./Acre and Prow Max is at 0.5 to 1.0 oz./Acre should be used to promote seedhead suppression as well as turfgrass quality. Multiple applications of the tank mix combination may be needed. The number of applications may not exceed recommendations for rates of mixtures for either
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for personal protective equipment (PPE).

CORROSIVE: Causes irreversible eye damage. Wear safety goggles when handling. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Contact with skin and do not inhale vapors, as this product will irritate mucous membranes.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category C on an EPA chemical-resistance select chart.

Applications and handlers must wear long-sleeved shirts and long pants, chemical-resistant gloves made of any waterproof material such as polyethylene or polyvinyl chloride, shoes plus socks and protective eyewear.

Discolor clothing and other absorbent materials that have been drenched or heavily contaminated with this product consequentially. Do not reuse them. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco or the toilet. Users should remove clothing immediately after having contact with product. Then wash thoroughly and change into clean clothing. The contaminated clothing should be washed before reuse.

Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash the outside of gloves before removing them.

STORAGE AND DISPOSAL

Do not contain water, food, or feed by storage and disposal.

PESTICIDE STORAGE

Store in original container and keep tightly closed. Store in a cool dry place.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Immerse diaper disposal, spray mist, or mix in a volume of Federal. If these wastes cannot be disposed of by a use by according to label instructions, contact your State Pest Control or Environmental Control Agency or the Hazardous Waste representative of the nearest EPA Regional Office for guidance. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

TRASH DISPOSAL

Non-refrigerated. Do not reuse or refill container. Offer for recycling, if available. For recycling, if appropriate. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into a disposal equipment or a mix tank and drain 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shakes for 10 seconds. Pour container into equipment or mix tank or above for reuse of water or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure 2 more times. Then offer for recycling or reconditioning or public disposal and dispose of it in a sanitary landfill or by incineration or if allowed by state and local authorities, by burning. Turn, stir, and cool out of smoke.

GENERAL USE

Proxy® Growth Regulator is a plant growth regulator that may be used to suppress the formation of seedheads of various plants including annual millet and white millet to allow suppression to support the growth of certain cool-season grasses. Proxy® Growth Regulator is highly absorbed and is most effective on actively growing green turf. For best results, apply in sufficient volume of water to provide uniform cover. Use of a spreader/sticker with an application of Proxy® Growth Regulator is not necessary. This application is best made between April and September. Reapplication interval is between 2 weeks. Do not allow entry into treated area until Proxy® Growth Regulator has dried. For maximum performance, delay mowing and close-up the day after application.

PRECAUTIONS AND RESTRICTIONS

Do not use this product for purposes other than those listed on the label. Do not treat turfgrass with poor root system or where stress is caused by disease or insect damage.

Do not use PROXY Growth Regulator in areas where sensitive plants or grasses are being grown. Do not use PROXY Growth Regulator for turf that is to be mowed or seeded within 6 hours of application.

Do not contaminate water used for irrigation or domestic purposes.

Do not apply PROXY Growth Regulator through any type of irrigation system.

Avoid spray drift to nearby crops after two applications of Proyect® Growth Regulator for Phase seedhead sup-

Do not exceed a maximum of 30 oz of PROXY growth regulator per 1,000 sq ft per year.

EQUIPMENT CLEANING

Prepared exposure to spray deposits will damage acrylic plastics, certain paints, and metals because of the acidic nature of this product.

Rinse thoroughly all exposed acrylic-plastic and painted surfaces with a detergent and water within one hour after sepa- ration.

TURF

SOIL CONTAMINATION: Foliar application of Proxy® Growth Regulator will provide suppression of Poa annua and white clover seedheads.

If the initial application to the emergence of new seedheads. A period of 2-3 weeks after application is required for maximum performance. High application rates may be made to pasturize Poa annua or white clover sites as needed, but not less than two weeks after the previous application. Follow either general recommendations and precautions on the label.

Tank Mixtures with Proyect® MAX: Tank mixtures of PROXY Growth Regulator at 5 oz per 1,000 lb of and Proyect® MAX at 1 oz per 1,000 lb of 1000 sq ft use to promote seedhead suppression as well as turfgrass quality. Multiple applications of the tank mix combination may be needed. The number of applications required must exceed recommendations for rates or timings for either
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Some materials that are chemical resistant to this product are listed below. If you want more options, follow the instructions for category A on an EPA chemical-resistance selection chart. Applicators and other handlers must wear long-sleeved shirts and long pants, chemical-resistant gloves made of any waterproof material, and approved PPE. Users should wash gloves before eating, drinking, cleaning, or using in any way that may contaminate food. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and water. Mix only the amount of spray you expect to use each day. Do not allow mixed solution to stand overnight. Do not apply this product in a manner inconsistent with its labeling. Do not apply this product in a manner inconsistent with its labeling. Do not apply this product in a manner inconsistent with its labeling.

User Safety Recommendations

User should wash hands before eating, drinking, cleaning, using in any way that may contaminate food. Wash thoroughly before eating using this product. Do not use PROXY Growth Regulator in areas where excessive thatch has accumulated. Do not containize water used for irrigation or domestic purposes. Do not apply PROXY Growth Regulator through any type of irrigation system. Avoid spray drift to nearby crops, as this product will cause modifications in plant growth. Plant injury may result. Scalding may occur on creeping bentgrass cultivars after more than 2 applications of PROXY Growth Regulator for Poa annua seedhead suppression. PROXY Growth Regulator has been used successfully on many bentgrass cultivars. Turf tolerance testing should be done on new bentgrass cultivars before extensive use. Seedheads are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Pesticide regulations. Read entire label before using this product. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not exceed a maximum of 30 oz of PROXY Growth Regulator per 1,000 sq ft per year. Equipment cleaning: Perform exposure to spray deposits with damage acrylic plastics, painted, or white clover sites as needed, but not less than two weeks after the previous application. Follow other general recommendations and precautions on the label.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Pesticide regulations. Read entire label before using this product. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not exceed a maximum of 30 oz of PROXY Growth Regulator per 1,000 sq ft per year. Equipment cleaning: Perform exposure to spray deposits with damage acrylic plastics, painted, or white clover sites as needed, but not less than two weeks after the previous application. Follow other general recommendations and precautions on the label.
product applied once. Follow the recommendation on each product label for the most restrictive application interval for each turf-grass. Application of this tank mixture during frost periods may cause temporary turf discoloration.

**Growth Suppression:** An application of PROXY Growth Regulator slows the growth of turfgrasses, thus reducing the required frequency of mowing and the volume of clippings collected. For best turfgrass growth regulation, apply PROXY Growth Regulator when daytime air temperatures are 65˚F and rising. PROXY Growth Regulator should only be applied once turfgrass mowing heights have been established for the season. Avoid multiple applications of PROXY Growth Regulator in areas where excessive thatch has accumulated.
