

TORO INFIELD PRO

TORO WORKMAN 1100 & 2100

TORO WORKMAN 3000 & 4000

The **RAHN GL 650 INFIELD GROOMER** levels uneven playing fields, helping to prevent ridge build up while creating a safer more

consistent infield. The **RAHN GROOMER** also fills small holes helping to eliminate areas where water accumulates from rain and irrigation.

The triple row broom is perfect for finishing the playing surface and can be stored upright for early transport.

The **RAHN INFIELD GROOMER** also works also works as an efficient dethatching tool and prepares the outfield grass for overseeding.

A two way leveling system works in a locked or float position to match the infield condition.

The **AERATOR GL650-8** helps to relieve compaction in turf areas. The 2" spike penetrates the soil beneath the turf allowing water, air and fertilizers to reach the roots while cutting the rhizomes and stolons helping to create more dense turf. It also helps prepare turf for overseeding.

SPECIFICATIONS

RAHN LEVELING SYSTEM

Double bar 72" wide; 3" x 3" x 1/4" structural steel.

HEAVY DUTY SCARIFER

60" wide bar; 2" x 2" x 1/4" structural steel; 3/8" x 1" x 3" replaceable hard-surfaced steel teeth.
