

Talstar® XTRA featuring Verge™ Granule Technology: ALL OF THE XTRAS COME STANDARD

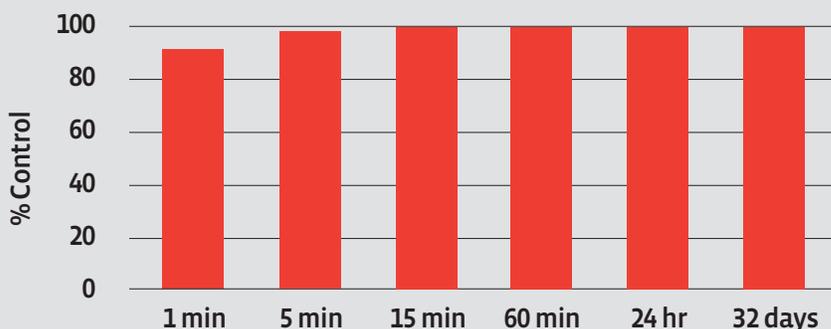

Kick your outdoor pest control into high gear with the granular solution engineered to go the XTRA mile. Talstar® XTRA featuring Verge™ granule technology delivers many additional benefits — all without added cost!

XTRA SPEED

- Formulated with FMC bifenthrin plus FMC zeta-cypermethrin for enhanced speed
- Proven to control fire ants in fifteen minutes or less
- Still delivers the dependable residual you'd expect from Talstar

ELIMINATES FIRE ANTS IN RECORD TIME 15 minutes or less!

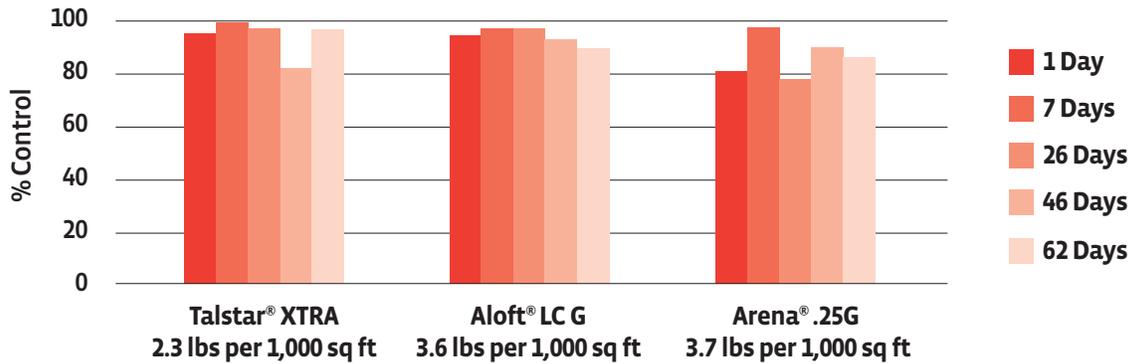

*Granules applied at 1/2 cup per mound and watered in with 1 gallon of water sprinkled on the mound.
Georgia – Summer 2008*

XTRA VERSATILITY

- Controls chinch bugs, many ants (including fire ants), fleas, ticks, earwigs, mole crickets, crane flies and more
- Flexible label allows for use in a wide variety of application sites
- Labeled for broadcast lawn, perimeter and mound treatments

CHINCH BUG CONTROL

Eileen Buss — University of Florida — Summer 2009; Pyrethroid susceptible SCB (09DLR021)

XTRA CONSISTENCY

- Granules disintegrate rapidly, delivering active ingredient to the desired area
- Granules are uniform in size and shape for better distribution and more even insecticide coverage
- Unique clay-based granular formulation produces significantly less dust

These images show granules poured into spreading equipment from a height of four feet. The Verge granule produces up to 137 times less dust than competitive granules.
