

BlackBullet MAX

VALVE

1 >>> SUPERIOR MATERIAL

- Glass-filled nylon construction gives the Black Bullet added strength over conventional PVC valves
- Pick up a Black Bullet in one hand and any other valve in the other to feel the difference

2 >>> MULTIPLE-BOLT COVER

- Stainless steel bolts easily thread in and out of quality brass inserts
- Black Bullet installers will tell you they rarely need to open a Weathermatic valve. When you do, it is easy to open and easier to close than most valves using screws or jar tops that are susceptible to stripping, dirt, and grit

3 >>> UNMATCHED MANUAL BLEED

- Send the Black Bullet into action by simply pulling the trigger
- It's the easiest, driest internal manual bleed in the business that won't flood the valve box
- No twisting on a solenoid or bleed screw is required

4 >>> SHOCKING SHOCK CONE

- The Black Bullet puts the hammer to water hammer by incorporating a cone-shaped diaphragm base
- The shock cone interrupts the water flow more gradually than other diaphragms to enable quick valve closure without the damaging effect of water hammer

5 >>> REVOLUTIONARY REVERSE-FLOW DESIGN

- The Weathermatic hallmark reverse flow design with a 45-year track record brings you:
- Reverse flow design means the valve fails shut rather than open in the event of diaphragm failure, unlike conventional forward flow valves that fail open
- Balanced pressure on the diaphragm extends valve life over forward flow valves

6 >>> 15 YEAR TRACK RECORD

- The Black Bullet track record shows less than a fraction of 1% return rate over 15+ years of reliable performance

7 >>> AMAZING VALUE FOR THE PRICE!

- Seasoned installers know that valves are the last place to cut expenses when just one call-back eliminates any cost savings on the job

8 >>> STANDARD DIRTY WATER OPERATION

- One valve for both clean and dirty water applications. Self-cleaning function is achieved as diaphragm actually flexes during operation to send dirt and debris down the line without the maintenance worry of filters and screens

9 >>> BEST WARRANTY IN THE BUSINESS

- Unparalleled 10-Year Warranty provides worry-free replacement twice that of any other competitor.

Model	Description
MAX-DW-10	Dirty Water 1" 24 VAC
MAX-DW-15	Dirty Water 1 1/2" 24 VAC
MAX-DW-20	Dirty Water 2" 24 VAC
