

MEMORIAL

CREEPING BENTGRASS

DESCRIPTION

MEMORIAL is an outstanding creeping bentgrass for golf course tees, fairways and putting greens. It's an excellent choice for overseeding into existing bentgrass tees and fairways. Bred at Rutgers University for a fine texture and optimum density, plus improved dollar spot performance, Memorial will compliment and improve "older generation" creeping bentgrass varieties, and is also ideal for improving turf quality and enhancing disease resistance in blends. Memorial creeping bentgrass was "championship proven" on the tees and fairways at Black Wolf Run GC, Kohler, WI, host of the 2012 US Women's Open Championship. 13M is less prone to scalping than the puffy, super-dense bents and has a medium dark green genetic color that blends well with other creeping bents. Memorial is an excellent standalone creeping bentgrass or can be used in CenterCut® Blend to provide superior performance coupled with genetic diversity.

APPLICATIONS

Tees, Fairways, and Putting Greens.

GEOGRAPHICAL ADAPTATION

Adapted to the cool season and transition zones.

SEEDS PER POUND

~6,000,000

PRODUCTION AREAS

Pacific North West, USA

FEATURES & BENEFITS

- Exceptional Fairway, Tee & Greens Turf Quality
- Excellent Disease Resistance
- Not extremely dense - Moderately open canopy provides outstanding year-round density.
- Less Prone to Scalping – Not Puffy.

RATE*

1-2 Lbs/1000 sq. ft.

*local conditions vary and dictate rates
