Model#	Description	Compatible with these basins
900FF	9" Catch Basin Filter	900, 900-4 and 916 NDS catch basins and kits
1200FF	12" Catch Basin Filter	1200, 1200NGB, 1203, 1204, 1216, 1217, 1225 NDS catch basins & kits

Filter fabric keeps fines from clogging pipe.

Without Filter

Pipe clogged with debris

With Filter

Clear, unclogged pipe

Clogged pipes reduce the effectiveness of drainage systems resulting in standing water and damage to property. Adding a filter is a simple solution to keep water flowing through a drainage system and a cost-effective alternative to expensive repair or replacement.

Design Features

Bypass gap allows water to overflow into the basin if it is full of leaves, fines, soot, etc.

Filter is designed for superior durability, filtration & strength

- Made from spun-bond polypropylene geotextile fabric.
- Inert to biological degradation and resistant to naturally encountered chemicals, alkalis and acids.

Grate holds the filter frame securely in place

Exploded view of installation

Meets international testing standards:

- ASTM D 4533: Durable up to 40 lbs. of weight
- ASTM D 4355: UV-resistant 70% at 500 hours
- ASTM D 4491: Filtration rates of water flow rate of 95 gpm

Helps comply with stormwater regulations.

Easy maintenance – Inspect every 6 months & clean/replace as needed.
