

Reinders Grass Seed

Reinders **MOKAN** Bluegrass Blend Seed Technology Sheet

Description

Reinders **MOKAN** Bluegrass Blend is a unique blend of elite varieties of Kentucky bluegrass for the municipal, school, landscape, and golf markets. This blend provides an improved turf demonstrating excellent wear tolerance that performs well in all regions of Kentucky bluegrass use. The **MOKAN** Bluegrass Blend provides aggressive growth, faster drought and stress recovery with dark color and medium fine texture. The addition of a Texas hybrid type variety adds heat tolerance for southern markets.

Application

Sports turf, lawn and landscape, golf course, parks, and other areas requiring a bluegrass turf.
