## Kentucky 31 Tall Fescue Grass Seed

### Seed Technology Sheet

Kentucky 31 Tall Fescue grass seed was introduced from Europe to the United States in the late 19<sup>th</sup> century and was used for lawns across North America. K 31 is an older proven variety with a coarse texture and attractive green color and is ideal for average lawn and turf use.

When used for a lawn K 31 has these traits:

- Attractive green color
- Drought tolerant
- Wear tolerant
- Heat tolerant
- Economical
- Easy establishment

#### Technical Product Specifications

- Light requirements: Full sun to medium shade
- Planting time: Early spring or early fall
- Drought tolerance: Excellent
- Disease tolerance: Excellent
- Sun tolerance: Very good
- Shade tolerance: Moderate
- Traffic tolerance: Good

Seeding rate 4 to 8 lbs. per 1000 sq. ft. (175 to 350 lbs per acre) Product No. 230-1404 – 50 lb.
