

DESCRIPTION:

The Nightscaping® 7W LED Module is a LED that utilizes a single COB Epistar chipset. The LED Module is energy efficient and water resistant. Designed specifically for Nightscaping's light bollards - creating perfectly crisp light shadows due to the single COB chipset. With 440 Lumens this LED Module is perfect for most commercial settings where more light is needed.

Features:

- Cold Forged Aluminum Housing
- Dimmable With Most Magnetic Transformers
- Fully Potted PC Board
- UL & FCC Compliant

Lumen Output:

- 7W - 440 Lumens

Other Features:

Wattage: 7W

Beam Spread: Multi-Directional

Kelvin Temp: 2700K

Operating Range: 9-24 VAC

Replaces: 50W Halogen

CRI: 84

IP Rating: IP-65

Chipset: CREE

Lamp Life: 35,000 hours

Warranty: 5 Years
