NITROGEN MANAGEMENT AID

EC GROW

Nitrogen Management Aid

When applying untreated nitrogen, 40% can be lost due to volatilization. APPLY RxN - The prescription to success! With more nitrogen available in the soil and not the atmosphere, your turf is ultimately greener and healthier.

This NEW-AND-IMPROVED treated urea is scientifically proven to reduce volatilization AND is recognized by the American Plant Food Control Officials (AAPFCO) as a stablized nitrogen.

Enhanced Nitrogen Uptake

- *reduces volatilization, denitrification, and leaching*
- *provides plant with more nitrogen*
- *manages nitrogen during key growth stages*
- *no detrimental effects on soil microorganisms*
