Turco T-3000	3.25	3.75	4.25	4.5	13 ft

Spreader settings are influenced by factors such as speed, equipment wear, and condition of spreader. Because of this, published spreader settings are a starting point for calibration of your spreader to properly apply Headway G at labeled rates. Methods to calibrate spreaders can be found in *The Mathematics of Turfgrass Maintenance 4th Edition* by Christians and Agnew, Ann Arbor Press/John Wiley & Sons, Inc.
