

Excellent control of dollar spot and Spring dead spot*!

WHAT IT IS

Kabuto® Fungicide SC is a liquid formulation featuring isofetamid proven to provide excellent control of Spring dead spot, as well as preventative and curative control of dollar spot, including control of carboxamide-resistant dollar spot. It inhibits all stages of development in the fungal lifecycle, and can be applied up to eight times per year with no resistance issues.

WHAT IT DOES

Kabuto controls:

- Spring dead spot*
- Dollar spot disease

Labeled for use on:

All turfgrass, especially where dollar spot resistance management is critical

Ideal for use on:

- Golf courses
- Residential lawns
- Commercial/industrial lawns
- Parks and school grounds

*Pending state registrations
