

# BULK PROTECTIVE POND NETTING

Aquascape Bulk Protective Pond Netting makes it easier than ever to protect ponds and other water features from debris and predators. The convenient, easy-to-dispense box makes it ideal for multiple installations or larger ponds, streams, and waterfalls. Plastic markers every 5' make it easy to cut the proper size—simply pull the desired length, cut, and install. The netting is extremely durable and the fine 3/8" woven mesh effectively keeps out smaller debris that would otherwise enter the pond. Aquascape Bulk Protective Pond Netting is available in 10', 20', and 30' widths.
