

SMART POND THERMOMETER

Give yourself peace of mind by monitoring pond temperature throughout the year with the Aquascape Smart Pond Thermometer. Use the integrated control panel for immediate temperature readings or connect to the Aquascape Smart Control App to monitor at anytime from anywhere using your smartphone or tablet. Use temperature data to adjust fish feeding, change water treatments, trigger other Aquascape devices, and more.

- Provides real-time pond water temperature
- Integrated display panel reads temperature in Fahrenheit or Celsius
- Connect to the app to automate triggers and access historical data and trending reports
- Uses water proof quick-connections compatible with existing low voltage lighting
