

STACKED SLATE SPHERES

The AquaScape Stacked Slate Sphere makes it easy to add the relaxing sights and sounds of water to any location. The lightweight, durable fiber-resin composite construction is built to last and provides the look and beauty of real rock. Water is pumped up through the center of the fountain and gracefully cascades over the stacked slate texture, creating an impressive effect. The stunning finish will not fade or chip, ensuring year after year of enjoyment. The sphere shape is ideal for a wide variety of installations and locations.

- Creates an impressive, natural-looking fountain
- Lightweight, durable fiber-resin composite construction
