

# FAUX STONE PROPANE TANK COVER

Cover unsightly propane tanks or other landscape components discretely and easily with the Aquascape Faux Stone Propane Tank Cover. The extremely realistic finish effectively replicates the color, shape, and texture of Aquascape Mongolian Basalt Columns, blending well into any environment. The Faux Stone Propane Tank Cover is designed specifically for covering standard twenty-pound propane tanks with the proper ventilation and access needed for maximum safety and convenience. The ventilation ports ensure safe use and are positioned at opposite ends of the cover, allowing them to be used as convenient handles for lifting the cover or providing quick access to the tank valve.

- Designed to replicate Aquascape Mongolian Basalt Columns
- Durable glass fiber reinforced concrete (GFRC) construction is built to last
- Integrated ventilation, handles, and lower mouse holes for hose exit
- Also great for covering power outlet posts, transformers, and more
