

2DQ™ Herbicide

QUALI-PRO

Quality Turf & Ornamental Products

2DQ is a powerful three-way herbicide containing three active ingredients that provide superior control of annual and perennial broadleaf weeds in warm season and cool season turfgrasses. 2DQ Herbicide is a unique formula to Quali-Pro.

- Unique formulation = step up from traditional three-way Herbicides.
- 3 unique mode of actions
- Offers lower use rates
- Integrated faster control (5-7 days) of Clovers, Dandelions, Ground ivy, Plantains, Spurges, Wild violets, Speedwell and many more
- Safe to major turfgrass species
- Quinclorac in the formulation replaces MCPP (reduces the Phenoxy herbicide)
- Easy to use high performance, liquid formulation with low odor
- Compatible with PRE emergence Herbicide like Dithiopyr, Prodiamine and others

Provides broad spectrum broadleaf weed control:

Broadleaf Weeds:

- Black Medic
- Clover
- Chickweed
- Dandelion
- Henbit
- Knotweed
- Oxalis
- Plantain
- Thistle
- Spurge
- Wild Onion
