

STABLE EDGE[®]

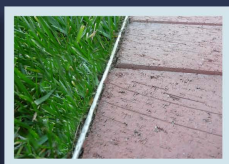

ALUMINUM PAVER RESTRAINT

For Keeping . . .

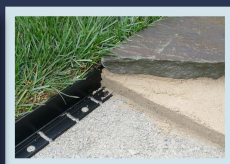

Concrete Pavers...

Clay Pavers...

Travertine Pavers...

or Natural Stone...

... In Place.

- **Flexible**
- **Will Not Rust**
- **Durable**
- **Reversible**

Ideal Restraint for:

- Entryways
- Walkways
- Pathways
- Patios
- Driveways
- Courtyards
- Cartpaths
- And more

STABLE EDGE® is made of an aerospace grade aluminum alloy that will never rust like steel or warp like plastic restraints.

"We choose Stable Edge because it is versatile and durable and it works great for curves or straight runs."

-Jeff Rand
