

MANUFACTURING AND SUPPLYING A COMPLETE
LINE OF PROFESSIONAL GRADE HAND TOOLS

WOLVERINE PRODUCTS

Professional Grade Hand Tools

ABOUT US

Wolverine Products is a family owned & operated company that began production in 1994. We are a division of Sure-loc Landscape Edging Corporation. Sure-loc Corporation diversified its product line by adding a hand tools division now known as Wolverine Products.

Wolverine Tools began manufacturing all-steel spades and shovels and is now known for manufacturing and supplying a broad line of contractor grade hand tools.

ABOUT OUR PRODUCTS

Wolverine Products offer the professional contractor superior strength and quality that stands the test of time, eliminating replacement costs. We have grown to be recognized nationwide for our quality features. Our standard and specialty tools are created using superior materials, such as chromoly steel, aircraft aluminum, pultruded fiberglass, and ash or hickory hardwoods. We sell our products exclusively through wholesale landscape suppliers, garden centers, and local hardware stores. This is because of our commitment to the industry, its professionals, and the fact that these are not ordinary home owner tools. Design, tooling, and production on many of Wolverine's products are done in-house to ensure strict quality standards. The end result is a line of products vastly superior to the tools offered by major chain retailers. At Wolverine Products, we make "Tools-Not Toys".

WARRANTY INFORMATION

At Wolverine Products, we build tools that offer outstanding performance year after year. We stand behind our products by extending to the original purchaser a full five year warranty on our line of All-Steel Spades & Shovels and a full one year warranty on the rest of our line. This covers manufacturing defects in materials and workmanship during normal use which normally emerge early in the life of the tool. The life of the tool is often determined by frequency of use and the conditions under which it is used. Frequent, daily use will wear out a tool faster than occasional use.

Our warranty does not cover normal wear, lost parts, damage inflicted intentionally by the user or failures due to accident, misuse, abuse, negligence, alteration or modifications. In no event shall Wolverine Products be liable for any special, incidental or consequential damages, including those allegedly resulting from the proper or improper use or misuse of the product. Wolverine Products' sole liability and the purchaser's sole remedy for a failure of products under this warranty is limited to the replacement, repair of the product, or the issuance of a credit at the option of Wolverine Products. No Automatic deductions by the purchaser are allowed.

To make a warranty claim: Return the defective tool to where it was purchased including proof of purchase, or call 1.800.787.3562 to speak directly with a Wolverine Products customer team member for resolution.

QUALITY CONTROL

We at Wolverine Products are obsessed with quality. Each one of our tools must go through a strict regimen of quality check points.

One final inspection of every product is done just prior to shipping our orders to ensure its in the best possible condition before it leaves our facility.

IN-HOUSE MANUFACTURING

Design, tooling, and production on many of Wolverine's products are made in-house, and many more are assembled on site to ensure strict quality standards and to keep our economy strong. The end result is a line of products vastly superior to the tools offered by major chain retailers.

MADE IN THE U.S.A.

Throughout this catalog, look for this symbol to know which of our products are manufactured in-house:

CONSUMER COMMITMENT

We sell our products exclusively through wholesale landscape suppliers, garden centers, and local hardware stores. This is because of our commitment to the industry, its professionals, and the fact that these are not ordinary home owner tools.

Our tools are intended to withstand use by landscape and hardscape professionals.

ALL STEEL SPADES & SHOVELS

D-Handle

5 YEAR WARRANTY

on All-Steel Spades & Shovels
against manufacturer's defects

The All-Steel Nursery Spades and Shovels are Wolverine's flagship tools.

Every weld and every piece of steel is from and by the very best.

Our commitment to quality is unmatched.

Some say we are ridiculously obsessed with quality.

Take a closer look for yourself.

It's not just another spade, its a Wolverine Spade.

DESCRIPTION

Wolverine's tools are manufactured with the professional contractor in mind. We have been manufacturing and selling these shovels since 1994 and since then they have become known nationwide as tough, dependable, and long lasting tools. When you're on the job you can't be worrying about your equipment breaking or failing. That is what makes using Wolverine Products a smart choice.

FEATURES

- Forward turned step
- Two rivets for strong head to neck attachment
- Northern Ash handles for maximum strength
- 14 gauge tempered steel blades for superior toughness
- Closed back shovels have welded back plates to prevent material build up

ABOUT CREW BY WOLVERINE PRODUCTS

CREW by Wolverine Products is yet another testament to our unwavering commitment to provide our customers with superior tools designed for professional use.

The CREW line was designed for your crew to perform on the most demanding job sites.

Handles are attached with a single rivet and reinforced with a metal collar at the neck, making one solid unit.

Heavy duty fiberglass or hardwood handles and comfort “D” grips make these shovels the perfect tool for your crew!

FEATURES

- Strong wood or fiberglass handle
- Heavy duty steel blade
- Rivet & steel collar connect the shovel neck to head, making one solid unit
- Forward turned step

CAP-ROCK SHOVEL
HANDLE ANGLES

DESCRIPTION

Cap-Rock Shovels are ideal for breaking up dense materials such as clay, coral, rock, and decomposed granite. Their low lift also makes them a perfect shovel for near vertical digging, such as with palm trees. Whatever your needs, we have a Cap-Rock Shovel to meet them.

FEATURES

- Closed back
- Aircraft quality tubing on handle
- Smooth comfortable powder coated steel handles
- Lifetime warranty against manufacturer's defects
- Fiberglass handle available in standard or solid core
- Mill sharpened blades creating a razor sharp cutting surface
- Heat treated extra thick blades which will not split like forged blades.

DESCRIPTION

Wolverine builds the strongest most durable Trenching Shovels on the market. Our blades are manufactured with extra thick chromoly steel. Light and durable, these shovels are perfect for trenching, digging and cleaning out landscape areas. With our various blade widths you can find the perfect trenching shovel to meet your needs.

FEATURES

- North American Ash handles for maximum strength
- 14 gauge heat treated steel blades are the strongest on the market
- Strong fiberglass handles with solid fiberglass reinforcing core
- Convenient lift angle for digging, trenching and cleaning out trenches
- Closed back, forward turned step

The .115" thick blades and chromoly steel tubing offers superior strength compared to treated or carbonized mild steel.

WHEELBARROWS

Poly

DESCRIPTION

Wolverine's professional grade line of wheelbarrows are perfect for all your construction, maintenance and landscaping projects. All of the Wolverine wheelbarrows feature heavy duty steel chassis with large tow/tie down hook. Add to that 4 ply knobby tires with precision bearings and Zurk fittings and these are one of the best made wheelbarrows on the market.

FEATURES (Standard on all wheelbarrows)

- Heavy duty specially formulated ABS tub makes wheelbarrows:
 - Tough, hard & rigid
 - Have very high impact strength
 - Have excellent high and low temperature performance
 - Resistant to cold cracks & practically indestructible
- No wedges under tub for a more solid foundation
- 4 ply knobby tires with precision bearings and Zurk fittings
- Extra Heavy Duty 2-1/8 x 1-5/8" x 60" Varnished North American Ash hardwood handles
- Large tow/tie down hook
- Heavy duty undercarriage and extra heavy duty foot brace & leg where extra support is needed
- Premium hardware kit
- Leg heel for support and stability

Heavy Duty Crack Resistant Tub

has no wedges under it creating a solid foundation. Our thickest, most rugged tub yet!

Rugged Wheels

4 ply 6.5" Wide Turf Tires give great stability and leave less ruts on the job site
