

CONTAINER WATER GARDEN FILTER

Ideal for all container water gardens holding up to 50 gallons of water

The Aquascape Container Water Garden Filter is a complete solution for small to medium-size container water gardens or any containers with stagnant or non-moving water including birdbaths, or water containers holding specimen pond plants like lotus or waterlilies.

- Magnetically driven, or "mag drive" motor technology, is simple and easy to maintain
- · Extremely energy-efficient
- Durable pre-filter water intake design prevents clogging and reduces pump maintenance
- · Provides years of trouble-free operation

#77005 Container Water Garden Filter (Unit Weight: .8 lbs.)

MSRP \$24.98

- Adjustable spray bar allows for surface movement and adds oxygen to the water
- Integrated suction cups help adhere the Container Water Garden Filter to the integrated shelf found in the Aquascape Patio Pond
- Mechanical and biological filter sponge reduces maintenance and provides excellent filtration
- Protective pump cage and large mechanical and biological pre-filter prevents debris from clogging or damaging pump

- Center channel allows the balls to be strung together making cleaning easier
- Textured surface maximizes space for beneficial bacteria populations and water retention
- Maximizes dissolved oxygen levels
- Compact size allows for placement into smaller areas
- Paddle wheel design breaks water flow helping to de-gas and aerate water

BIOBALLS™
