Torch Mounting Options

Universal U-Bracket	Option 1	Auger	Option 3
 The universal U-Bracket is for temporary mounting on a solid surface. Included with every torch.		The Aussie Auger Anchor is for temporary landscape mounting. Since you don't have to dig or use cement, this Aussie Auger Anchor lets you install your fireplace without mess or sweat, the fastest, easiest, cleanest way to install your fireplace!	
 The stabilization plate mounting option includes: The Universal U-Bracket as well as a 14" stabilization plate for temporary mounting on a deck or patio surface. Available for purchase separately	Option 2	 1. Attach Universal U-Bracket. 2. Place Auger: Use hammer to set the tip into the ground. Be sure to keep auger straight. 3. Slide metal turn bar through the Universal U-Bracket. Use the turn bar to twist the auger into the ground until U-Bracket is flush with ground. Available for purchase separately
