

## 15-0-5 (50% SRN)

### A Slow-Release Fertilizer Solution Concentrate with Nitrogen and Potassium

15-0-5 fertilizer solution provides nitrogen and potassium in a 3:1 ratio for a wide variety of turf grasses.

15-0-5 nitrogen is from urea and the unique slow-release nitrogen, triazone (50% SRN), known for its crop safety, superior absorption and efficient translocation and remobilization within the plant.

15-0-5 potassium is provided by potassium chloride, an economical source of soluble potassium.

15-0-5 was developed for the supplemental feeding of all turf grasses including those experiencing stressful growing conditions.

**APPLICATION:** Initiate applications in spring when first green-up appears and repeat as needed during the active growing season. Apply in 3-5 gallons of spray solution per 1000 ft<sup>2</sup>.

0.10#N/1000ft<sup>2</sup> = 8.69 oz 15-0-5

0.25#N/1000ft<sup>2</sup> = 21.72 oz 15-0-5

0.50#N/1000ft<sup>2</sup> = 43.44 oz 15-0-5

**TURF:** Apply in irrigation water or surface apply and water in. Use 6-12 oz/1000ft<sup>2</sup>, 3 to 4 times per month. Use 3-5 gallons of water/1000ft<sup>2</sup> as carrier.

**FERTIGATION:** 15-0-5 may be injected during each irrigation utilizing the current technology and equipment available to the golf course superintendent. It is recommended that rates be in accordance with soil test data and in accordance with the equipment manufacturer's recommendations.

#### GUARANTEED ANALYSIS

<b>Total Nitrogen (N)</b>	<b>15.0%</b>
<b>7.5% Urea Nitrogen</b>	
<b>7.5% Other Water-soluble Nitrogen*</b>	
<b>Soluble Potash (K<sub>2</sub>O)</b>	<b>5.0%</b>

\*Slowly available nitrogen derived from Urea-triazone Solution

**Derived From: Urea, Urea-Triazone Solution, and Potassium Chloride**

**NET WEIGHT: 49.1# (9.82#/Gallon)    NET CONTENTS: 5 GALLONS**
