### 5 WHAT SETS PB-2620 APART FROM THE COMPETITION?

#### PRODUCTIVITY

- Blowing force is 5% greater than the competition.
- Large fuel capacity is 33% more than the competition.

#### COMFORT

- Rubber grip on main handle increases comfort and reduces vibration.
- Secondary handle improves maneuverability and reduces fatigue.

#### INNOVATION

- Patented Posi-loc™ tubes connect easily and securely.

#### DURABILITY

- Two-stage air filtration protects engine in dusty conditions.
- Wear ring extends the life of the end tube.
- Chrome-plated cylinder increases engine life.

\*ANSI standard reflecting combination of CFM & MPH to provide single comparison of power.
