## PRODUCT MARKETING INFORMATION SHEET Pro290

### **Text for Product Information screens and literature.**

#### Major Bullets:

- Tracks Underground Wires Including Landscape Lighting and Invisible Fence.
- Won't Damage Lights (125 mw Output).
- Ground Quality LED.
- Range to 1,000 feet.
- Receiver Volume Control.
- Popular 33 kHz Tracking Signal.
- Ground Stake Included.
- Transmitter Automatic Off Switch.
- Uses eight (8) 'C' Batteries and one (1) 9-volt (not included).

The unique Pro290 Landscape Lighting Wire Locator is a tool for contractors or home owners working with landscape lighting or invisible fences. The Pro290 consists of a transmitter and receiver and uses a limited power output to avoid damage to sensitive landscape lighting bulbs. The Pro290 uses an easy-to-track 33 kHz signal frequency, and sets up in less than a minute.

Simply connect the Pro290 to the wire to be tracked and to the ground stake in dirt, get a good ground indication, and track the beeps with the hand held receiver. It's that easy.
