## **Pro50 Digital Multi-function Irrigation Tester**

**Manufacturer: Armada Technologies**

**Phone: +1 616-803-1080**

**Fax: +1 616-803-1083**

**Web: [www.armadatech.com](http://www.armadatech.com)**

**Product Name: Pro50 Digital Multifunction Irrigation System Tester**

**Manufacturer Part Number: Pro50 or Pro50K (Kit Version)**

**Category: Test Equipment**

**Product Function: Tests electrical function of irrigation controllers, field wire and solenoids, including AC and DC. Built in Volt-Ohm meter with Auto-Ranging capability. Tone generator included with Positive ID cadence change.**

**Weight: Less than 1 pound.**

**Packaging: 4-Color Clamshell**

**Keywords: Armada Digital Solenoid Valve Activator Chatter Irrigation Tester**

**Shipping Restrictions: None**

**Warranty: 12 Months**

**Clamshell Contents: Pro50 Tester, User Guide.**

### Text for Product Information screens.

#### Major Bullets:

- Simple LCD Icons.
- Built-in Autoranging Volt-Ohm Meter.
- Activates or Chatters AC, DC, or SpikeGuard™ Solenoids.
- Activates and Holds Solenoids Open.
- Generates 1 kHz Tracing Tone.
- Checks Clock 24 Vac Power Output.
- Tests for Open or Shorted Wiring on any System.
- Detachable Premium Cordset for Easy Field Maintenance.
- Uses four (4) AA Batteries (not included).

The Pro50 Digital Multi-Function Irrigation tester is a premium tool for irrigation contractors and maintenance personnel. The Pro50 incorporates detailed features to modernize the old solenoid activator to new century standards. AA batteries greatly extend operation life, premium leads eliminate the most vulnerable part of old testers, LCD screens give simple, detailed information on testing procedures. At the same time, the Pro50 maintains the traditional tests of wire, clock and solenoid performance but the Pro50 does these things better, faster, and more simply than before. Then the Pro50 adds the ability to do these tests to DC and virtually every other solenoid out there. The Pro50 doesn't invent these tests, it just perfects them.

Functionally, the Pro50 is unchallenged but in addition, the Pro50 is housed in a modern enclosure with highly stylized ergonomic touch and feel.

Available accessories include the Pro210F Inductive probe for tone tracing and the Pro21 carrying case. Both of these items are standard with the model Pro50K kit.
