

# Reinders

## PROFESSIONAL FERTILIZER

# 18-12-6

370-7880 - PCSCU, Avail

AVAIL works at the microenvironment level through patented technology protecting phosphorus fertilizers from the many loss mechanisms that are in the soil. The polymer that is applied is water-soluble and enables phosphate to remain free in the soil providing the opportunity for greater plant uptake.

### GUARANTEED ANALYSIS

Total Nitrogen (N).....	18.0%
4.7% Ammoniacal nitrogen	
13.3% Urea nitrogen*	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> )**.....	12.0%
Soluble Potash (K <sub>2</sub> O).....	6.0%

Plant foods derived from: Urea, Muriate of Potash, Diammonium Phosphate and Poly Coated Sulfur Coated Urea.

\*4.5% slowly available urea nitrogen from poly coated sulfur coated urea.

\*\*12.0% stabilized phosphate from Avail.

*with AVAIL*

*without AVAIL*

## Consistent Results

- ***Reduces phosphate fertilizer fixation in the soil***
- ***Creates a negative shield around the P molecule protecting it from positive ions in the soil***
- ***Protects phosphate from elements such as aluminum, calcium, iron and magnesium***

**Net. Wt. 50 lbs.**

**Coverage 12,500 sq. ft.**
