

Get total control
of weeds for
up to 6 months

Specticle[®]
TOTAL

Specticle[®] Total is the non-selective herbicide with quick knockdown and unrivaled residual control. Not only does it kill existing weeds, it prevents new ones for up to 6 months. This innovative solution is easily mixed in a backpack sprayer and can be used in both landscapes and hardscapes. Specticle Total gives landscape managers a powerful tool for controlling troublesome weeds.

Specticle Total can be used in areas like:

Landscapes (check label for rates)

- Mulched areas
- Around ornamental plants and grasses
- Decorative gravel and lava rock areas
- Fence rows
- Around buildings

Hardscapes

- Parking lots
- Paths and walkways
- Gravel areas
- Driveways and sidewalks
- Patios
- Rocky/sandy areas in desert climates
- Bare ground in non-crop areas

Specticle Total is non-selective. Do NOT use:

- Directly on desirable plants
- On any desirable turf

Easy to mix in a backpack sprayer.

- Saves mixing and application time
- Package size: 144 fl. oz.
- Each bottle makes up to 9 gallons of spray (16 fl. oz. per gallon)

NOTE: Do not apply more than a maximum of 32 fl. oz./1,000 sq. ft. per year

Benefits you can see. Results to help you grow your bottom line.

- Delivers up to 6 months residual control – which means fewer treatments
- Offers more effective control than other typical pre-emergent products – for fewer callbacks
- Uses less active ingredient – resulting in less herbicide in the environment
- Rainproof in 30 minutes
- Visible results in hours
