SPYKER SPREADERS 150 YEARS IN THE MAKING

After you've thrown away a few of the others,
it's time to get the last spreader you'll need.
Spyker ERGO-PRO™ – The Spreader for the Pros.

In 2018, we are excited to offer you the most ergonomically designed, durable and efficient spreader on the market. We've combined the accuracy you expect from Spyker with a new hopper geometry, heavy duty adjustable height frame and all the features you need to give you a spreader that will make your life easier and your clients happier. *This year - make it a Spyker ERGO-PRO™ spreader so you can ensure great results.*

Premium products are purchased because there's more to them than merely getting the job done. To be a professional, you've got to produce great results every time and at the right costs, and that requires quality tools.

The launch of our new line of ERGO-PRO™ spreaders represents over 150 years of learning, listening and teamwork. Your trust and feedback have driven the design and advancements made by our engineers, and that is what has helped each generation of Spyker spreaders outperform and outlast our competition.
